## the core mission

It is no secret that there is a concerted effort on the part of globalist interests to collapse the US and its \$ currency. To those conscious of history and economics, it is clear that this has been a long-standing agenda, kept from the American tax-payers, whilst their labour and sacrifice paid into a quadrillion dollar war machine waging endless foreign wars, over which the American people had little to no say.

The resultant emergence of BRIC's and the threat it now represents to every American family can no longer be ignored. This threat, coupled with continuous left-wing campaigns to diminish the spirit and dignity of America both locally and abroad, is pitiful and dangerous in extreme. If America collapses - the world collapses. It is for this reason that NewEarth is poised to plant its flag in the heartland of America and begin manifesting micro-nation satellites in all States, starting with Tennessee. This modern day Ark augurs a return

to prosperity economics and self-determining communities, lawfully removed from the over-reach of faceless bureaucracy and lawless taxations.

# why tennessee?

**NewEarth** selected **Tennessee** as the preferred turnkey micro-nation within the USA for a number of key reasons:

- ▶ In the first instance the regional government are far more relaxed and less draconian than throughout the USA
- ▶ Tennessee and its visionary leaders have banned chem-trailing and geoengineering from the skies.
- ▶ The municipal planning authorities have the lowest restrictions on planning, building and development than anywhere else in the USA
- ▶ Tennessee is spectacularly beautiful with the largest underground body of water in the USA

### livestock & seed-banking

One of the gravest travesties of modern globalism impacting America and the world at large has been the systemic removal of animals from the land. This agenda is directly connected to international trade links and globalist hegemony i.e.: **world food control**. It has nothing to do with efficiency in agriculture and food production.

**NewEarth Nation** intends to repopulate it's landholdings with as many cattle, sheep, goats, fowl and local wildlife (and their flatulence) as the land will reasonably allow. It will also establish a robust **NewEarth Pioneer Seed-Bank**
